

WATT'S UP?

theWattSpot.com

August 2007

Dear ComEd RRTP participant,

Allow me to introduce myself as the new ComEd RRTP program manager.

It is my pleasure to bring you another edition of "Watt's Up," our monthly e-newsletter available exclusively to valued ComEd Residential Real-Time Pricing (RRTP) program participants like yourself.

"Watt's Up" is an eReminder that you can save energy ... and hopefully, money by keeping an eye on our real-time (every five minutes) web postings of the hourly ComEd electricity prices.

It's easy when you are online: get predicted and actual hourly ComEd electricity prices as well as practical energy-conservation ideas, at www.theWattSpot.com. Want to know more about a particular subject? Just Contact Us. We'll do our best to cover that topic in a future email or FAQ posting.

So thanks for subscribing to the monthly "Watt's Up," another eTool to help you learn about saving energy and money!

Sincerely,
Katie Papadimitriu, ComEd RRTP Program Manager
