

# WATT'S UP?

theWattSpot.com

Dear ComEd RRTP participant,

In this month's newsletter we would like to focus on the benefits of **signing in!**

By "signing in" to your theWattSpot.com account you will be able to view your Personal Information, Currents Programs, Compare Bills and view Shortcuts to ComEd CARE. *Please make sure that your internet browser allows pop-ups.*

## 1. Monthly Usage Information:

1. Log in to your Wattspot account
2. Click **Compare Bills**
3. Once the page loads, click **Compare** toggle (it has an arrow at the end of it.) You should see a list of bill summaries for each billing period.
4. Click **Details** hyperlinks in **Billing Details** column. Once this page loads, you should see your bill summary for that given billing period.
5. Look for **Close Window** box. To its left, you should see the following items:
  - Home
  - Usage Details
  - FAQ's
6. Click **Usage Details**. You should be returned to the first list of bill summaries.
7. Look for **Close Window** box. To its left, you should now see the following items:
  - Home
  - FAQ's
  - See Graph of Data
  - Download File
8. Click **See Graph of Data**. A series of charts should open in a new pop-up window.

The charts relate to your monthly usage for that particular billing period. You will see charts for: **Electric Consumption (kWh), Total of Hourly Energy Charges and Average Energy Charges / kWh**. In any of the charts, you can click on any bar to view hourly data for that day.

## 2. Daily Usage Information:

1. Repeat steps 1 - 5 listed above.
6. Once the page loads, click **Usage Details** (to the left of the "Close Window" box).
7. Once the page loads, you should see **Daily Energy Usage** report. This report lists: the date, day of the week, daily electricity usage, the total sum of hourly energy charges, your average energy charge / kWh, and your hourly usage.
8. Click one of the **Details** hyperlinks in the **Hourly Usage** column. For that particular day, you will see a table with the following columns: **Hour Ending, Usage (KWH), Hourly Energy Price / kWh, Hourly Energy Charge**. Each table row represents one hour of that particular day. You can review your daily usage graphs by clicking **See Graph of Data**.

You can exit the daily or hourly tables by clicking **View Billing Details**.

You can switch between monthly and daily views by clicking **Back to Monthly** or **Back to Daily** to the left of the **Close Window**.

You can see graphs of the data at any time.

You can download the data into excel spreadsheets.

Please notify us if you experience any problems or issues with this program. You are a valued customer.

You can always find day-ahead hourly price projections at [www.theWattspot.com](http://www.theWattspot.com) or by calling 1-866-WATTSPOT.

Sincerely,  
Katie Papadimitriu  
ComEd RRTP Program Manager
